---

Mark & Bart,

Do we have any plans or direction for me on scheduling a meeting with the community on the results of the testing? And/or the next steps we will be taking in the Superfund Process, since we haven't had a meeting with the Community since the ODEQ Meeting. I'm sure the Community has a lot of questions on the testing and our plans for the future.

(Last Communication from Community Involvement was the meeting on 1/30/2014 and the TAG availability notice in February 2014.)

(Removal actions August 2014 and December Residential Sampling.)

Thanks,  
Bill
